

## ACCESSORIES FOR BMW G 310 R

## STORAGE

### SMALL TOPCASE, 30 L

The waterproof plastic topcase with a volume of 30 litres offers enough space for a helmet. The lid, which is available in Black storm metallic, Light white and Racing red, and the soft-close hinges, which allow the lid to be lowered gently, underline the high-quality appeal.

Only in conjunction with luggage carrier, topcase carrier and corresponding outer shell.  
For information on speed and load limitations, please refer to the operating instructions.  
For more detailed information, contact your authorised BMW Motorrad Retailer or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

1 Black storm metallic

2 Light white

2 Racing red

### LIGHT TOPCASE, 29 L

With a volume of 29 litres, the light topcase offers enough space for a helmet and convinces in everyday life as well as on short tours. The black plastic topcase is lockable, has a large reflector on the rear side and a BMW badge on the lid. The maximum payload is 3 kg.

Only available in conjunction with luggage carrier.  
For information on speed and load limitations, please refer to the installation/operating instructions.

### LINER FOR TOPCASE

The matching tailored liner for the topcase gets the luggage organised and facilitates loading and unloading. The liner is readily available and easy to carry thanks to the carry handle and shoulder strap. The practical details include the outside pocket and the three-sided zip.

### TANK BAG, 13-20 L

The tank bag made of durable polyester offers many clever details and can be extended from 13 to 20 litres as required. Extra space is available in the map pocket and two exterior pockets. The smart fastener design guarantees a secure hold and extremely functional handling.

### LUGGAGE CARRIER

A topcase or other pieces of luggage can be attached to the sturdy luggage carrier made of powder-coated die-cast aluminium.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad Retailer.

Original BMW Motorrad equipment is available from your authorised BMW Motorrad Retailer.

## DESIGN

### DECORATIVE STICKER SET

The decorative "Street" sticker set is perfectly tailored to the motorcycle and guarantees an attractive, unique look. The dynamic lines in yellow, red and blue create a modern street racer design and underline the sporty character of the machine. In addition, the rim rings in contrasting colour ensure lots of attention.

The decorative "Wolf" sticker set is perfectly tailored to the motorcycle and creates an attractive, unique look. The lines in yellow, red and blue create a wolf motif further accentuating the dynamic design of the motorcycle. In addition, the rim rings in contrasting colour ensure lots of attention.

#### 1 Decorative Street sticker set

#### 2 Decorative Wolf sticker set

### LED INDICATORS

A shining example: The beautifully designed LED indicators with white turn indicator glass convince with their slim design and modern lighting technology. They respond much faster than incandescent lamps and are virtually wear-free. This provides a clear safety advantage in road traffic.

Note the differences in national-market versions.  
To be fitted and/or enabled in a specialist workshop,  
ideally at your authorised BMW Motorrad Retailer.

## ERGONOMICS & COMFORT

### HIGH SEAT

The high seat has a seat height of 850 mm. This means that even tall riders enjoy a comfortable knee angle and a relaxed and comfortable seat position that helps prevent signs of fatigue.

**High seat**  
Seat height 850 mm

### LOW SEAT

15 mm lower than the standard version, this low seat makes climbing on off easier and keeps the ground within easy reach. Many riders feel safer thanks to the reduced seat height, because they can manoeuvre and control their motorcycle more easily. The high-quality surface material in black corresponds to the standard equipment.

**Low seat**  
Seat height 820 mm

### ADJUSTABLE HANDBRAKE LEVER / CLUTCH LEVER

The ergonomically optimised handbrake and clutch levers can be adjusted in four steps making it easy to attain the preferred grip width. The two-tone look with black powder coating and a chrome-plated adjustment wheel emphasises the individuality of the motorcycle.

#### 1 Handbrake lever, adjustable

#### 2 Clutch lever, adjustable

Original BMW Motorrad accessories are available from your authorised BMW Motorrad Retailer.

### HEATED GRIPS AND SWITCHES

Warm hands despite lower temperatures: This is ensured by the electric heating grips with three-stage control. This enhances comfort and also improves safety, because warm hands and more feeling in the fingers simply improves vehicle control. In addition to heating stages 1 and 2, the rider has the option of activating the outside temperature-controlled automatic transmission. The heated grips are operated via a multifunction switch on the right handlebar controls, which can also be retrofitted.

For more detailed information, contact your authorised BMW Motorrad Retailer or go online at [bmw-motorrad.com](http://bmw-motorrad.com).  
To be fitted and/or enabled in a specialist workshop,  
ideally at your authorised BMW Motorrad Retailer.

## NAVIGATION & COMMUNICATION

### BMW MOTORRAD NAVIGATOR VI

With the multifunctional Navigator VI, route planning becomes child's play. The system with 16GB flash memory and a five-inch touch screen always shows the right way. Thanks to the circular polarisation filter (CPOL), the waterproof display is easy to read even in direct sunlight. The high-resolution screen in a casing similar to a smartphone provides all the essential information and ensures that you can see the big picture required in every situation. Numerous additional functions make planning and touring an exciting experience. Plan your routes can be created according to your personal preferences and enjoy driving on winding and quiet side roads. In unknown terrain, the "round trip" option is a good choice as it reliably guides the rider at the end of the tour back to the starting point. The Bluetooth connection to the BMW Motorrad communication system and the optional Smartphone Link app enable multimedia on the go: navigation announcements, telephone calls and music streaming as well as the retrieval of weather forecasts or traffic jam information are no problem. Navigation preparation adds further functions such as "My Motorcycle", and the multi-controller on the handlebars offers an alternative control option. Choose the pre-installed map data, and you will always be up to date with lifelong, free map updates.

For more detailed information, contact your authorised BMW Motorrad Retailer or go online at [bmw-motorrad.com](http://bmw-motorrad.com).

### BMW MOTORRAD SMARTPHONE CRADLE

BMW Motorrad's robust Smartphone Cradle provides a safe and protected place for your smartphone. This means that useful functions such as navigation instructions and online information can also be used while you are on the move. Thanks to the handy charging function, your smartphone is always ready for action even on extended bike tours.

Only in combination with bracket for BMW Motorrad navigation systems.

## SAFETY

### HAND PROTECTORS

The hand protector, made of impact-resistant and UV-resistant plastic, also protects the operating elements against branches and stone chips while riding off-road, and is aerodynamically tailored to the vehicle. On the road, the wind and weather protection offered by the protectors is also impressive: hands and fingers stay longer dry and warm even at low temperatures.

### ENGINE PROTECTION BAR

The robust engine protection bars, made of polished stainless steel, reliably protect the bike against damage without restricting the rider's freedom to lean the machine. The robust tube construction will even take hard knocks and prevent major fall damage off-road and on asphalt.

Both the combination with the standard engine spoiler and with the aluminium bash plate is possible.

### ALUMINIUM ENGINE GUARD

The robust and lightweight aluminium engine guard effectively protects the lower area of the motorcycle against stone chips and damage, such as when bottoming out. It is wider and longer than the standard engine guard. Its elegant design emphasises the high-quality character of the bike. (Model shown: G 310 GS)

Original BMW Motorrad accessories are available from your authorised BMW Motorrad Retailer.

### SPRAY GUARD COVER (NOT SHOWN)

The rear-wheel cover with splash protection protects the rear of the vehicle from dirt both on wet roads and off the road, for example when riding through mud puddles. This keeps the rear light and number plate, but also a mounted topcase and other luggage items protected from dirt for longer.

## MAINTENANCE & TECHNOLOGY

---

### POWER SOCKET

Electronic devices can be connected to the vehicle electrical system via the 12 V power socket. One example of this is the BMW USB charger, which can be used to charge and operate mobile phones and MP3 players with an appropriate interface while riding.

To be fitted and/or enabled in a specialist workshop, ideally at your authorised BMW Motorrad Retailer.
